FAITH • CREATIVITY • CONNECTION

Digital Communications & Media Specialist

FOR CHURCHES + FAITH-BASED ORGANIZATIONS

Helping your ministry reach people
and share God’s message all week long.

AYANNA EDWARDS

Heart for the church. Skills for the work.

HOW I HELP

I help churches strengthen their digital presence, connect with their communities, and simplify the behind-the-scenes work that keeps ministries running.

Creative + operational support, together

RAISED IN CHURCH

I grew up going to church almost every day. My grandparents owned a church, and my grandfather was a pastor. Church is not new to me — it's how I was raised.

100% customer satisfaction scores

Remote customer care • Peloton via Arise

Paid UGC partner • MiaMily

Top customer satisfaction scores in remote customer care, 2020–2022. Short-form video is part of my daily work.

A little more about me.

The person behind the work · grounded in faith, creativity, and connection.

Faith shapes how I show up for people.

Connection is at the heart of every ministry.

The service ends on Sunday. The admin doesn’t.

Inboxes fill up. Guests wait for a reply. Sermons are shared once and not used again. Social pages go quiet between Sundays, and announcements live in too many places.

Newsletters, church app updates, and event graphics slip to the bottom of the list. Even a good team gets stretched thin.

That growing pile-up is fixable every week — fully remotely.

The details, handled with care.

01 Inbox care + guest follow-up

Replies in your church’s tone, including first-time guest follow-up.

02 Prayer requests

Sorted and passed to the right person with care.

03 Newsletters + announcements

Built from your weekly sermon and events.

04 Church tools + organization

Planning Center and Church Center updates, event graphics, files, and calendars.

Less repetition. More connection.

BEFORE

Service times, kids check-in, and event questions answered one by one, by hand — often late at night.

AFTER, WITH HELP

A comment-to-DM flow for your sermon series, ready answers for common questions, and content scheduled in one batch each week. I monitor and update it as sermons and events change.

BUILT WITH AI, CHECKED BY A PERSON

I use AI tools to move faster, then review everything before it goes out in your church’s name.

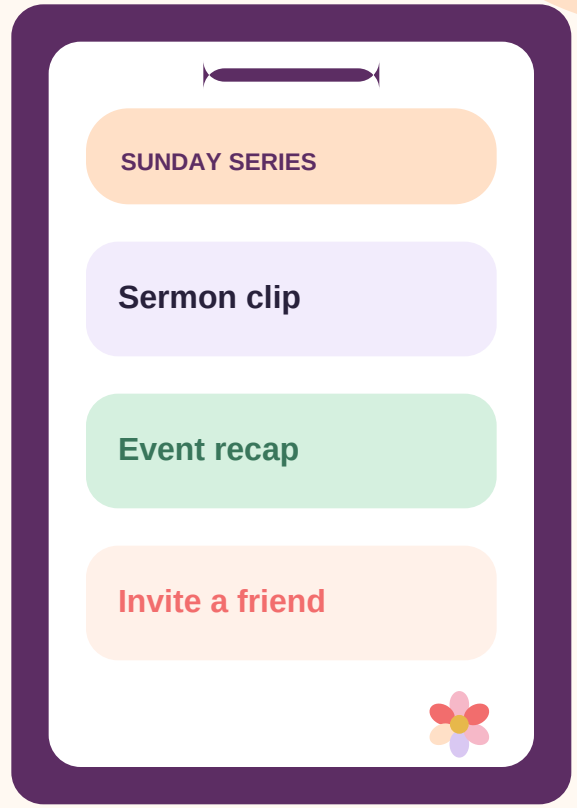

ONGOING, NOT ONE-TIME

Monthly support covers weekly work — new sermons, new events, monitoring, updates, and maintenance — inside the tools you already use.

Your social media, alive all week.

I manage your social presence so footage your team already captures gets used — not left sitting on a phone.

- Online series shaped around your weekly sermon and growth goals.
- Events and everyday moments that help people feel included and draw those near and far closer to God.
- Sample social: fictional Grace Harbor Church Sunday invite graphic — “Week 2 is this Sunday at 10 am, bring a friend.”
- Sample video: captioned sermon clip, event recap, and short-form clip concept, created from footage you provide.

You send the footage. I edit, caption, post + report on reach.

No filming required from me.

A steady rhythm, every week.

MONDAY

- Inbox cleared
- Guest follow-up sent
- Week priorities confirmed

TUESDAY–THURSDAY

- Newsletter built
- Planning Center + Church Center updated
- Event graphics delivered
- Social posts edited + scheduled
- Systems checked and updated

FRIDAY

- Newsletter sent
- Next week planned
- Simple growth + admin report sent

FULLY REMOTE

Clear deadlines, shared folders, one weekly check-in.

ALWAYS IN YOUR VOICE

You approve the tone once; I keep it consistent.

Already have a team? I make their week lighter.

EXTRA WORK, HANDLED

When Sundays, events, and holidays pile up, I take on repeat weekly work: inbox, newsletter, updates, captions, and posting — so your team can focus on people in the room.

CONSISTENCY THAT CONTINUES

Posting and guest follow-up don’t stop for sick days, vacations, or busy seasons. Your church keeps a steady presence each week.

SUPPORT, NOT REPLACEMENT

I work in your voice, inside the tools you already use, and hand work back ready to go. Your team keeps creative direction.

A SECOND SET OF HANDS, WITH AI SPEED

I use AI to draft, clip, and schedule faster, then check everything by hand before it goes out in your church’s name.

LET’S CONNECT

Let’s make sure no guest or task gets lost.

Let’s have a quick chat. I was raised in church, and I’d be honored to help yours reach people all week.

We’ll look at your inbox, guest follow-up, and weekly updates together, choose the lane — or both — that fit, and I’ll show you exactly what your first week could look like.

NO PRESSURE. NO LONG CONTRACT TO START.
